REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art of record is Borenstein (US 5,437,722). Borenstein teaches a composition that comprises paraffin wax, montan wax, polyvinyl alcohol and water. The montan wax is present in 1 to 200 parts per 100 parts of the paraffin. The polyvinyl alcohol is present in an amount of 1 to 50 parts per 100 parts paraffin. The present invention excludes montan wax and the proportions of the present invention are outside the ranges disclosed in Borenstein. While Borenstein exemplifies a composition wherein no montan wax is present (Example 3), the proportions for the paraffin and polyvinyl alcohol are outside of the claimed ranges of the present invention and it can be seen that the presence of montan wax is required in Borenstein, as demonstrated by Example 4 of Borenstein.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
